16th Symposium Sensor Data Fusion: Trends, Solutions, and Applications

Call for Papers

Motivation

To a degree never known before, human decision makers or decision making systems have access to a vast amount of data. Therefore, real-time data streams must not overwhelm the actors involved. On the contrary, the data are to be fused to high-quality information to provide a reliable decision support. Being a challenging exploitation technology at the common interface between sensors, command & control systems, data and information fusion has a large potential for future security and ISR systems in defence and civilian applications.

Scope

Sensor Data Fusion techniques provide higher-level information by spatio-temporal data integration, the exploitation of redundant and complementary information, and the available context. Important applications exist in logistics, advanced driver assistance systems, medical care, public security, defence, aerospace, robotics, industrial production, precision agriculture, traffic monitoring, sensor positioning, and resource management.

Keynote

Plenary Talk: Daniel Cremers - 3D Computer Vision for Dynamic Scene Understanding.

Key Aspects

- Distributed sensor fusion in complex scenarios
- Fusion of heterogeneous sensor information
- Exploitation of non-sensor context knowledge
- Artificial Intelligence of autonomous systems
- Risk analysis / data driven sensor management

Fees

€ 199.-	Students
€ 399.-	ISIF or AESS Members
€ 449.-	IEEE Members
€ 499.-	Regular

- For the student registration a proof of the student status is required.
- One registration covers one paper only.

Contributions

Prospective authors are encouraged to submit high-quality full draft papers (6-8 pages, IEEE format). All submissions are subject to a peer-review process by the technical program committee. Accepted and presented papers will be submitted to IEEE for publication. At least one of the authors of each accepted contribution is expected to register for the Symposium, which will be held in Bonn, Germany, and to present the paper. For details contact www.fkie.fraunhofer.de/sdf2024.

Important Dates

- 12.08.2024 Submission of full draft papers
- 30.09.2024 Notification of acceptance
- 18.11.2024 Submission of the final version
- 25.11.2024 Start of SDF Symposium

Organisation

Executive Chairs: Wolfgang Koch, Fraunhofer FKIE and University of Bonn, Felix Govaers, Fraunhofer FKIE, Germany.

Technical Program Chair: t.b.a.,

Publicity Chair: t.b.a..
